AIRFIELD PAVEMENT MANAGEMENT WITH MICROPAVER
CITY & GUILDS ACCREDITED (APMM)

City & Guilds
ACCREDITED PROGRAMME

Course Overview:

Those involved in the management of airfield pavements, in particular within UK Defence Infrastructure Organisation.

Who Is This Course For:

Provides knowledge on how to use MicroPAVERs standard and customised management reports, both GIS and alphanumeric together with its condition prediction and budgetary functionality.

Key Learning Areas Covered in This Course:

- Reasons for having a Pavement Management System
- Construction of a database for your airfield "from scratch"
- Asset inventory and condition records
- Inspection methodology based on ASTM D 5340-11
- Options for use of ruggedised tablet PCs
- Defect identification and classification for both rigid and flexible pavements
- Practical site exercise on defect identification wherever practicable

Course Duration / Fees / Location:

2 day training course. Available On-site. Accommodation from £98+VAT (including DBB)
