

COMPETENT PERSON MEDICAL GAS PIPELINE SYSTEMS

CITY & GUILDS ACCREDITED (CPMGPS)

Course Overview:

This course is designed to provide you with an overview and understanding of how to work safely on medical gas systems and appreciate your responsibilities in accordance with HTM 02-01. You will then be able to provide competent assistance to the Authorised Person during the execution of engineering test terminal units. Upon successful completion of the written assessment, you will be issued with a City & Guilds accredited certificate of achievement.

Who Is This Course For:

This course is designed for maintenance supervisors / other personnel, who have been nominated as the Competent Person MGPS, who need a satisfactory level of training that ensures they have the knowledge and competence to manage a medical gas system safely.

Key Learning Areas Covered in This Course:

- Introduction to basic gas safety and HTM 0201
- Typical Gas System design and operation
- Understanding of gas system schematic diagrams
- Basic fault finding, including typical responses to alarm/ emergency conditions
- MGPS Maintenance and Testing Requirements, including practical tests
- Introduction to the MGPS Permit to Work System, as detailed within HTM 0201
- Emergency Procedures

Course Duration / Fees / Location:

5 day training course, £995+VAT per delegate. Available in York and Slough.
Accommodation from £98+VAT (including DBB)
