

HIGH VOLTAGE TECHNICAL AWARENESS

CITY & GUILDS ACCREDITED (HVTA)

Course Overview:

This course will enable you to gain the practical and theoretical awareness of some of the more technical aspects and use of high voltage systems and equipment. The aim of this course is to consolidate and enhance current knowledge and explore common engineering techniques.

Who Is This Course For:

This course is aimed at engineering staff who work within high voltage environments, as either an Authorised Person, Competent Person or engineers within this discipline.

Key Learning Areas Covered in This Course:

- Cables and testing
- Protection - schemes and methods
- Transformers – theory, selection and maintenance
- Earthing principles and testing
- Maintenance techniques
- Switchgear operation and testing

Course Duration / Fees / Location:

3 day training course, £810+VAT per delegate. Available in York, Slough and On-site. Accommodation from £98+VAT (including DBB)
