

Handling 'F' Gases and ODS substances (Cat 3) (FCAT3) City & Guilds 2079-13

Course Overview:

This course will provide you with the knowledge and practical skills to undertake refrigerant recovery from stationary refrigeration, air conditioning and heat pump equipment to meet Category III theoretical and practical requirements.

Who Is This Course For:

This is designed for those working within the refrigeration and air-conditioning industry who need to meet the legal requirements for working with fluorinated gases, or F-Gases, and other ozone depleting substances.

Key Learning Areas Covered In This Course:

- Causes and effects of ozone depletion
- Causes and effects of global warming and climate change
- Hazards and safe working practices for the recovery, storage and transportation of recovered refrigerants
- Recovery of refrigerant and oil and preparation for disposal

Course Duration / Location:

2 day training course, available in York, Slough and Onsite

Course Fees:

£345+VAT per delegate. Accommodation from £98+VAT per night (including DBB)
